

Vertical OPT

Multi-functional treatment

More secure

More comfortable

Application

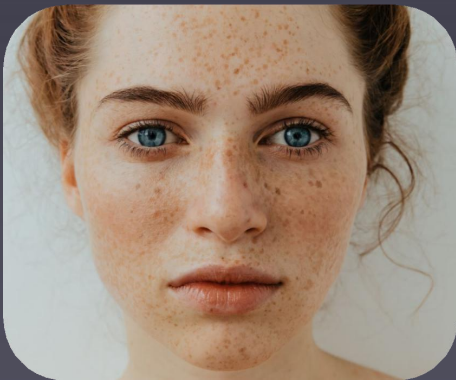

Acne treatment

Redness & vascular treatment

Skin tone brightening

Pigment & fine lines removal

Hair removal

Improve skin texture

The most advanced OPT technology

America's latest intensity pulse light technology.
Accurate wavelength, accurate treatment.

4 Patents in one machine

Cobra handpiece design, External water tank,
Rotated connector, Self-detection technology.

Self-detection

Automatically self-detection technology, stop every
problem before turning on if ever. Ensure the long
lifespan for machine and convenience for after
sale.

Patent Cobra probe

Prevent light damage to the eyes

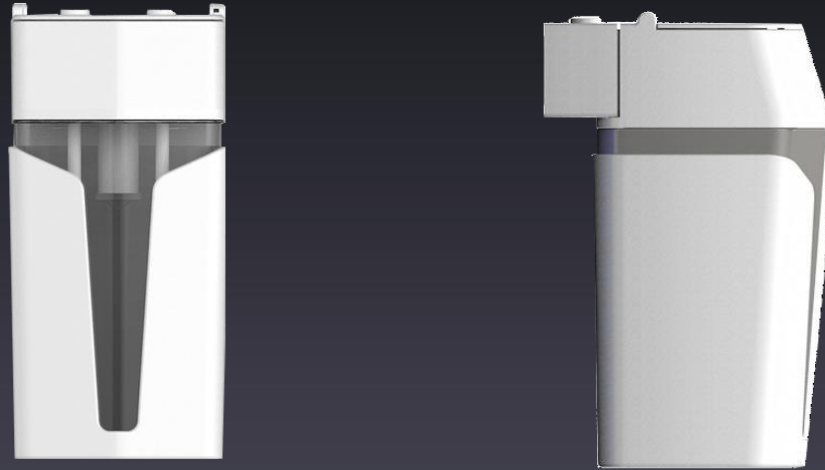

Top-notch lens coating process, filter more accurate treatment light/wavelength

Powerful cooling system & sapphire crystals, constant 2-5 °C cooling temperature offer a stable and comfortable treatment experience.

UK xenon lamp, with high energy density and remarkable effect

Two changeable filters, fit for more treatments

External water tank

Unique user-friendly design

Convenient for watertank cleaning and water changing

Clinical cases
